

CORONAVIRUS ADVICE

Reduce your risk of coronavirus infection

Regularly and thoroughly clean your hands with an alcohol-based hand rub or wash them with soap and water

Cover nose and mouth with tissues or inside of elbow when coughing or sneezing

If you have a fever, cough or difficulty breathing, seek medical attention and call in advance

Dear Brethren,

It is perhaps timely to ask all of our members, should they be feeling unwell and think that they are suffering from something that someone else might catch, to consider very carefully whether they should be attending Lodge or Chapter meetings until they are better. This is very much for the benefit of all of our members as well as that of the individual concerned. We will of course update this advice as appropriate, according to Public Health England advice.

Sincerely and fraternally yours,
Dr David Staples, FRCP
CEO and Grand Secretary
